

THE SQUIRREL CAGE

ASHRAE - ALAMO CHAPTER #65

SAN ANTONIO, TX

ISSUE: FEBRUARY 2011

ALAMO ASHRAE PRESIDENT'S MESSAGE

About a month ago, President Obama gave the annual State of the Union address. In that address he mentioned the need to invest in research, renewable energy and STEM (science, technology, engineering and mathematics) education. Those initiatives along with the federal budget and regulations passed by 112th congress will have an effect on our industry. ASHRAE has a Washington DC office that houses the Office of Government Affairs. This office is tasked with solidifying ASHRAE's presence as a leader when it comes to issues affecting our industry.

If you are interested in following the activities of the Government Affairs Office visit their page on the ASHRAE website and sign up for their newsletter. <http://www.ashrae.org/advocacy/>

For email updates: <http://www.ashrae.org/advocacy/page/1344>

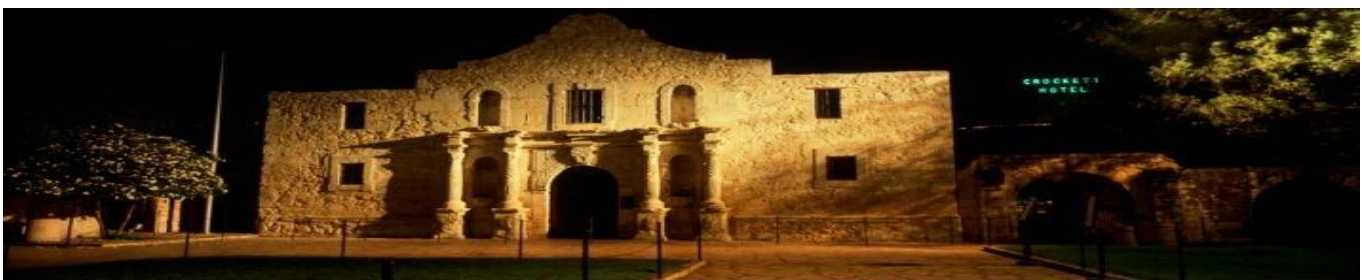

Closer to home, last month the 82nd legislative session began in Austin. The legislation, state budget and regulations produced by the pink dome will also have an effect on our industry. The State Board of Professional Engineers has several committees that address and advise on our professions' concerns before state elected officials. If you are interested in following the Government Advisory or the Legislative Issues Committee use this link: <http://www.tbpe.state.tx.us/boardmeetings.htm>

We know the actions of our elected officials affect our profession in a variety of ways. Use these links to stay informed. Well, I have a Spurs game to finish watching. See you at the next ASHRAE event.

Checking:	\$8,143.59
Money Market:	\$8,112.65
Petty Cash:	\$250
TOTAL ASSETS:	\$16,506.24

SAN ANTONIO, 1910

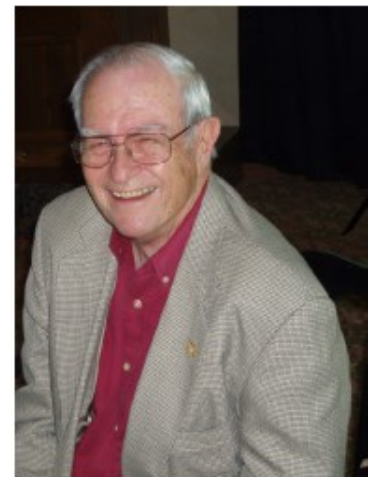

“Modeling a Sustainable World”

Manuel F. Lizcano, Historian

Samuel Hay Harper, Jr.

“Sam passed away on November 30, 2010. Sam was born in Houston, TX, October 7, 1931. He lived in Houston until 1959, when he moved to San Antonio. Sam attended San Antonio Academy before finishing high school at Lamar in Houston. He obtained his B.S. degree, in Mechanical Engineering, at Texas A&M College - Class of '53.

Following a few years in the Army, Guided Missiles Branch, Sam spent his professional engineering career in the HVAC industry. Those years were spent with the Trane Company, Westinghouse and Paschal-Harper, Inc., before establishing S.H.H. Engineering. He loved his family, his country, and the great outdoors. Sam was a member of the Society of Professional Engineers, Christ Episcopal Church, ASHRAE, Sons of the American Revolution, and other organizations. Those who knew him will remember his integrity, intelligence and remarkably sharp wit. He was preceded in death by his wife of 52 years, Bettie. Sam is survived by his daughter, Kelley Harper Wynne; son-in-law, Don R. Wynne III; son, Sam Hay Harper III; daughter-in-law, Jennifer Shaw Harper; grandchildren, Stephen Harper Wynne, Elizabeth Bonnell Wynne, Hannah Blue Harper, Sam Hay Harper IV, and Harriett Blue Harper. Sam/Dad/Grandad will be greatly missed.”

And by all his friends he as happy man and shared his joy of life with all the people he met. A smile for one and all. It was a pleasure to have known him and he will always be remembered with the same smile he always had. *“Light up your face with gladness”, he always did.*

The Rest is History
